

# Lyons Falls Classroom II News

## October 23, 2018

Hello families and friends, we hope you are enjoying this fall weather!

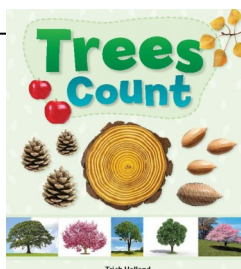

We have been learning a lot about trees and apples the past two weeks. It has been fun playing in the leaves outside and we went for a nature walk and collected leaves to put on the science table and look them over using a magnifying glass. The children learned that leaves have veins and they are either parallel or netted in pattern.

We have enjoyed the cooler weather and have spent time

### Read Aloud

We spend time reading different books every week. Here are just a few we've been reading.

*Our Tree named Steve*  
*Chicka Chicka BOOM BOOM*

### Small Groups

We continue to work hard on being ready for when we go to kindergarten. We have been working on identifying our names, letters and numbers. Ask your child to complete the phrase, "Around the tree, around the tree that's the way you make a ...".

## Twiggle

Children have been introduced to Twiggle and his friends. Twiggle is a turtle puppet and helps children to learn more about their social/emotional well-being.

He comes to visit our classroom weekly teaching us about being kind and making right choices. Twiggle is also teaching us what to do when we are mad. He taught us to...

1. Stop!
2. Take a deep breath.
3. Talk about the problem.

## Dates to Remember

*10-23-18* North Country Dental Clinic

*10-25-18* Pumpkin Patch trip @ Kraeger's Farm (a trip around on the hay wagon and a tour of the farm)

*10-26-18* Rain Date for the pumpkin patch trip
