Stop, Drop and Roll!!!

The children have been learning about fire safety the past couple of weeks. Within the dramatic play area the children have been dressing up in fire suits and pretending to put out fires. The block area has been full of fire trucks and sirens!!

Mrs. Simonds had the children creating flames by using their fingers to crinkle up red, orange and yellow tissue paper and gluing them onto a flame pattern.

During large group time we talked about what to do if our clothing was to catch on fire. The children practiced Stop, Drop and Roll. Be sure to ask them to show you how good they are at it.

Recently we were able to take a visit to Dolhof's Hardware down the street from school. One of our classmate's dad works at Dolhof's and he talked about and showed us the forklift and the tractor. We were able to see how they both work and how they are used. We watched the forklift pick up a big pile of wood. It was so exciting! At the end of our visit

We have continued our study on Balls and have learned about all sorts of balls and what they are used for and then chose which ball was our favorite.

Catherin- soccer ball
Nadine- bouncy ball
Ethan- bocce ball
Christian- basketball
MaeLeea- soccer ball
Calvin- football
Anthony- soccer ball
Miles- baseball
Kianna- bouncy ball
Elly- basketball
Annabelle- colored balls
Noah- meatballs
Arica- bouncy ball

Upcoming Events

- Tues. October 23-Dental Clinic
- Thurs. October 25-Pumpkin Patch Trip

From the Kitchen

The children have been busy learning about new foods and working hard at helping Miss Shorty and Mr. Miller.

They were able to look and taste the many kinds of beans that were used in the chili we enjoyed for lunch. They also worked hard at peeling carrots and cutting up cabbage.

During snack time the children made a fireman's ladder with graham crackers and pretzels.

Small Group Activities

The children have been working very hard during our small group times.

They have been working on their small motor and eye hand coordination skills with activities such as cutting and gluing.

The children worked on name identification by gluing the letters of their name on a fire ladder they created from paper.

During this time they have also been
