

Lyons Falls Classroom I News

February 5, 2018

Focus:

Center & Choice Time

Center time is a time for the children to learn and show the teachers what they know and can do. The last two weeks they have been doing just that! Some of the activities have been

Math

- Counting marshmallows to add to their hot chocolate
- Matching numbers to the correct number of objects
- Counting using a 10 frame
- Writing numbers

Creative Arts

- Making a weight scale with a coat hanger
- Painting with water color

Fine Motor

- Manipulating play dough
- Cracking nuts using a simple

Head Start Hair Salon

"Your appointment is at 10am", "Do you want a wash?" and "Do you want your hair curled today?" are some of the phrases you may have heard when you walked into our classroom. The children have enjoyed practicing their hair styling skills; there may be some future hair stylists.

In the waiting area of the salon, friends cared for each other's babies and waited for their "Appointments".

New vocabulary words:
straightener, curling iron, blow dryer, and perm rods.

Simple Machines

What is a simple machine? How do we use a simple machine?

What simple machine did you see at Dolhofs? These are questions that we have been answering and discussing in the classroom.

How do we use a simple machine? What is a simple machine?

Christian– muscles and hands

Kianna– muscles

Nadine- screw drivers with muscles and hands
